PERSONAL STATEMENT

I'm a 25 years old freelance illustrator and designer. As a recent graduate from Montclair State University, I combine my knowledge of illustration as well as graphic design top create hybrid pieces of work that really stand out when put on display.

I have had about eight years experience working in the Adobe Creative Suite as well as a lifetime background in illustration. I started off doing hand-drawn fliers for musical performances and switched over to digital. Since the, I have made a name for myself designing everything from gig posters to t-shirts to corporate logos. No matter what the job is, my capabilities are more than sufficient for the task at hand!
